Program of
Olympic Venues Construction and Development of Sochi City as a Mountain Climatic Resort

Sport Olympic Venues		
№	Olympic Venues and Related Activities	Construction responsibility
Subprogram «Construction of Olympic Sports Venues and Support Venues»		
Olympic Sports Venues		
1.	Excluded.	
2.	Combined Ski and Biathlon Complex, 1,100-room mountain Olympic village, driveway. Psekhako Ridge. (feasibility studies, construction)	OJSC «Gazprom»
3.	Alpine Centre with engineering protection systems, Aibga Ridge, Roza Khutor area (feasibility studies, construction)	«The Ski Resort Development Company Rosa Khutor» LLC
4.	Russian National Sliding Centre with engineering protection systems and external power grid, water supply and sewage networks (feasibility studies, construction)	State Corporation for Construction of Olympic Venues and Development of Sochi City as a Mountain Climatic Resort (hereinafter SC «Olympstroy»)
5.	Snowboard Park, Freestyle Centre with engineering protection systems (feasibility studies, construction)	«The Ski Resort Development Company Rosa Khutor» LLC
6.	K-125, K-95 Ski Jumping Complex (feasibility studies, construction)	OJSC «Krasnaya Polyana»
6.1	Trail for Nordic Combined (design and survey works, construction)	SC «Olympstroy»
7.	Excluded.	
8.	Maly Ice Palace (capacity 7,000), dismantlable structure, Imeretinskaya lowland (design and survey works, construction)	«UMMC-Holding» LLC

Sport Olympic Venues		
№	Olympic Venues and Related Activities	Construction responsibility
Subprogram «Construction of Olympic Sports Venues and Support Venues»		
Olympic Sports Venues		
9.	Sochi Olympic Skating Center (capacity 12,000), dismountable structure, Imeretinskaya lowland (design and survey works, construction)	SC «Olympstroy»
10.	Olympic Oval (capacity 8,000), Imeretinskaya lowland (design and survey works, construction)	OJSC «Technology transfer center of the Krasnodar Region building complex «Omega»
11.	Bolshoi Ice Palace (capacity 12,000) (design and survey works, construction)	SC «Olympstroy»
12.	Sochi Olympic Stadium (capacity 40,000) (design and survey works, construction)	SC «Olympstroy»
13.	Olympic Curling Centre (capacity 3,000), dismountable structure, Imeretinskaya lowland (design and survey works, construction)	«Construction and investment company «Slavoblast» LLC
14.	Olympic Park, excluding venues and facilities listed in items 8-13 of the Programme (feasibility studies, design, construction) <****>	SC «Olympstroy»

Support Venues for Olympic Sports Venues operation		
15.	Olympic village (capacity 3,000), Imeretinskaya lowland (design and survey works, construction)	«RogSibAl» LLC
16.	Mountain Sub-Village (capacity 2,600) (design and survey works, construction)	«The Ski Resort Development Company Rosa Khutor» LLC
17.	Main Media Center (press centre, media centre), including complexes of 3-star buildings and facilities (600 places and 4200 rooms) for mass media representatives accommodation, Imeretinskaya lowland (design and survey works, construction)	OJSC «Technology transfer center of the Krasnodar Region building complex «Omega»
18.	5-star hotel for International Olympic Committee representatives accommodation (500 rooms), Imeretinskaya lowland (design and survey works, construction)	«HotelStroy» LLC
19.	Complex of 4-star buildings and facilities (1,285 luxury suites) for Olympic family and International Paralympic Committee accommodation, Imeretinskaya lowland (design and survey works, construction)	«RogSibAl» LLC
20.	Russian International Olympic University and Multifunctional Hotel and Recreation Complex (design and survey works, construction): educational and administrative building of Russian International Olympic University (1 st stage); hotel and recreation buildings including 5-star rooms (150) and 4-star rooms (200) within Multifunctional Hotel and Recreation Complex (2 nd stage)	«Sport Invest» LLC

Support Venues for Olympic Sports Venues operation		
21.	Road from Alpine Center «Alpika-Service» to the finish zone of the Alpine Center «Roza Khutor» with access to the Russian National Sliding Center, Freestyle-Center, Snowboard-Park and Mountain Sub-Village» (design and survey works, construction)	SC «Olympstroy»
22.	Excluded.	
22.1.	Cableway 3S, from the confluence of rivers Mzymga and Pslukh to the finishing zone of the Rosa Khutor ski resort, and from the finishing zone of the Rosa Khutor ski resort to the Mountain Olympic Village, including construction of turning grounds, parking lots, access bridges to cableway stations and hiking trails (feasibility studies, design, construction).	SC «Olympstroy»
23.	Highway from mountain health resort Alpica-Service to Sulimovsky Brook, from Sulimovsky Brook to Cableway 3S station, including engineering protection systems (feasibility studies, design, construction)	SC «Olympstroy»
24.	Road from Esto-Sadok to sport and tourist complex «Gornaya Carousel» (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)
25.	Road from Esto-Sadok to the Ski-Jumping Complex (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)
25.1.	Passenger cableway from the Esto-Sadok hub to K-125, K-95 Ski Jumping Complex (feasibility studies, construction)	SC «Olympstroy»
26.	Specialized motor transport maintenance depots for passenger motor transport for participants and guests of the XXII Olympic Winter Games and XI Paralympic Winter Games 2014 in Sochi (design and survey works, construction)	Autonomous Non-Profit Organisation «Transport Direction of the Olympic Games»
27.	Imeretinskaya substation (110 kv) with overhang of electricity transmission line (design and survey works, construction)	OJSC «Federal network company of the Unified Energy System»
28.	Ice Palace substation (110 kv) with overhang of electricity transmission line (design and survey works, construction)	OJSC «Federal network company of the Unified Energy System»
29.	Mzymta substation (110 kv) with overhang of electricity transmission line (design and survey works, construction)	OJSC «Federal network company of the Unified Energy System»
30.	Excluded.	
31.	Video boards for public broadcast of the events of the XXII Olympic Winter Games and XI Paralympic Winter Games 2014 in Sochi (design and survey works, construction)	Investor

Subprogram «Construction and Reconstruction of Venues for Development of Sochi as a Mountain Climatic Resort»		
Transport Infrastructure		
32.	Combined (motorway and railway) road Adler – mountain health resort Alpica-Service, including construction of second through railway Sochi – Adler – Veseloye (feasibility studies, design, construction)	OJSC «Russian Railways»
33.	Tuapse – Adler railway (feasibility studies, design, reconstruction and staged construction of additional two-way railtrack sections between for the following locations: Tuapse – Shepsi, Shepsi – Vodopadny, Vodopadny – Lazarevskoye, Lazarevskoye Chemitokvadge, Yakornaya Shchel – Loo, Dagomis – Sochi, Sochi – Matsesta, Matsesta – Khosta, Khosta – Adler)	OJSC «Russian Railways»
34.	Railway from Adler to the Sochi Airport (design and survey works, construction)	OJSC «Russian Railways»
35.	Two level traffic interchange on the intersection of Vinogradnaya str. and Donskaya str. (174th km) on the Federal Motorway M-27 Dzhubga – Sochi up to the boundary with Abkhazia, Krasnodar region (design and survey works, construction)	Federal Road Agency
36.	Traffic interchange on the intersection of Kurortny Avenue and 20th Gornostrelkovaya divisiya str. (184th km, Stadium) on the Federal Motorway M-27 Dzhubga – Sochi up to the boundary with Abkhazia, Krasnodar region (design and survey works, construction)	Federal Road Agency
37.	Two level traffic interchange on the Federal Motorway M-27 Dzhubga – Sochi up to the boundary with Abkhazia in the area Golubye Dali, Adler District of Sochi (design and survey works, construction)	Federal Road Agency
38.	Traffic interchange on the intersection of Kurortny Prospect and Divnomorskaya str. (185th km, Bytkha) on the Federal Motorway M-27 Dzhubga – Sochi up to the boundary with Abkhazia, Krasnodar region (design and survey works, construction)	Federal Road Agency
39.	Multi-level traffic interchange «Adler Ring» (design and survey works, construction)	Federal Road Agency
40.	Federal Motorway M-27 Dzhubga – Sochi up to the boundary with Abkhazia at the section Adler – Veseloye (design and survey works, construction)	Federal Road Agency
41.	Two level traffic interchange Airport (2 nd km) on the Motorway Adler (motorway Dzhubga – Sochi) – Krasnaya Polyana (design and survey works, construction)	Federal Road Agency
42.	Federal Motorway M-27 Dzhubga – Sochi up to the boundary with Abkhazia at the section of Sochi bypass (design and survey works, construction)	Federal Road Agency

Subprogram «Construction and Reconstruction of Venues for Development of Sochi as a Mountain Climatic Resort»		
Transport Infrastructure		
43.	Central motorway of Sochi «Kurortny Avenue Substitute» at the section from the 172 nd km of the Federal Motorway M-27 Dzhubga – Sochi (Psakhe river) to the starting point of the Sochi bypass section (Agura river) with reconstruction of the section of the road from Zemlyanichnaya str. to Kurortny Avenue, Krasnodar region (design and survey works, construction)	Federal Road Agency
44.	Road bridge over the Sochi river, Central District of Sochi (design and survey works, construction)	Federal Road Agency
45.	Federal Motorway M-27 Dzhubga – Sochi up to the boundary with Abkhazia at the section between the traffic interchanges km. 202 «Golubye dali» and km. 204 «Adler ring», Adler District of Sochi (design and survey works, construction)	Federal Road Agency
46.	Two level traffic interchange on the intersection of Gagarina str. and Donskaya str. (design and survey works, construction) <*>	Krasnodar Region Administration
47.	Two level traffic interchange on the intersection of Transportnaya str. and the junction of the Sochi bypass road (Heat and Power Plant) (design and survey works, construction)	Krasnodar Region Administration
48.	Road bridge over the Sochi river with arrangement of a traffic interchange near Krasnodar ring (design and survey works, reconstruction) <***>	Krasnodar Region Administration
49.	Road on 20th Gornostrelkovaya divisia str. at the section from Transportnaya str. to road interchange near the sports complex «Stadion» (design and survey works, reconstruction) <*>	Krasnodar Region Administration
50.	Malaya Sochi bypass at the section from 20th Gornostrelkovaya divisia str. to the bridge over the Sochi river in the area of Krasnodar ring (design and survey works, reconstruction) <***>	Krasnodar Region Administration
51.	Two level traffic interchange on the road intersection of Plastunskaya str. and Makarenko str., lower junction (Makarenko) (design and survey works, construction) <*>	Krasnodar Region Administration
52.	Two level traffic interchange on the road intersection of Plastunskaya str. and Makarenko str., upper junction (Vertodrom) (design and survey works, construction)	Krasnodar Region Administration
53.	Roads on Donskaya, Plastunskaya str. (design and survey works, reconstruction) <***>	Krasnodar Region Administration, Sochi City Administration
54.	Roads in Imeretinskaya lowland (design and survey works, construction)	SC «Olympstroy»

Subprogram «Construction and Reconstruction of Venues for Development of Sochi as a Mountain Climatic Resort»		
Transport Infrastructure		
55.	Sochi sea port (design and survey works, reconstruction, construction of hydraulic engineering structures)	Federal Agency for Sea and Inland Water Transport
56.	Coastal infrastructure of the Sochi sea port for the purpose of creation of an international maritime passenger and cruise transportations center (design and survey works, reconstruction, construction)	Public corporation «Sochi Sea Port»
57.	8 maritime terminals of the Sochi sea port (Imeretinka, Adler, Kurgorodok, Khosta, Matsesta, Dagomys, Loo, Lazarevskoye) (design and survey works, reconstruction, construction)	Federal Agency for Sea and Inland Water Transport
58.	Coastal infrastructure of 8 maritime terminals of the Sochi sea port and purchase of vessels for local sea passenger transport (Imeretinka, Adler, Kurgorodok, Khosta, Matsesta, Dagomys, Loo, Lazarevskoye) (design and survey works, reconstruction, construction)	«Doninvest» LLC
59.	Cargo terminal of the Sochi sea port at the mouth of the Mzymta river (design and survey works, construction of hydraulic engineering structures)	Federal Agency for Sea and Inland Water Transport
60.	Coastal infrastructure, h and process equipment of the Sochi port cargo terminal at the mouth of the Mzymta river later to be restructured in yachting infrastructure (design and survey works, construction)	«Port Sochi Imeretinskiy» LLC
61.	Cargo railway terminals in Imeretinskaya lowland (design and survey works, construction)	OJSC «Russian Railways»
62.	Buildings and facilities for the Sochi airport (design and survey works, reconstruction, construction)	OJSC «Sochi international airport»
63.	Sochi airport airdrome (design and survey works, reconstruction)	Federal Air Transport Agency
64.	Complex of facilities for air traffic control, radio-technical support of flights and electric communications of the Sochi airport (design and survey works, reconstruction)	Federal Air Transport Agency
65.	Railway Passenger terminals in Dagomys, Sochi, Matsesta, Khosta,(design and survey works, reconstruction in order to modify the terminals for usage by physically disabled people)	OJSC «Russian Railways»
66.	Central automated traffic control system for Centre and Khosta districts of the City of Sochi (feasibility studies, design, construction)	Krasnodar Region Administration, Sochi City Administration

Subprogram «Construction and Reconstruction of Venues for Development of Sochi as a Mountain Climatic Resort»		
Transport Infrastructure		
66.1.	Overall traffic flow scheme for the City of Sochi, automated traffic control system for the City of Sochi (feasibility studies, design (excluding Central automated traffic control system for Centre and Khosta districts of the City of Sochi), reconstruction, construction)	Autonomous Non-Profit Organisation «Transport Direction of the Olympic Games»
66.2.	Logistics centre in Sochi, to manage and control passenger and cargo flows (feasibility studies, design, construction)	Autonomous Non-Profit Organisation «Transport Direction of the Olympic Games»
67.	Parking lots in Sochi (design and survey works, reconstruction, construction) <*>	Krasnodar Region Administration, Sochi City Administration
68.	Roads to the sightseeings, pedestrian zones, overheads, passages and bridges (design and survey works, reconstruction, construction) <*>	Krasnodar Region Administration, Sochi City Administration

Engineering Infrastructure		
69.	Engineering protection of Imeretinskaya lowland area including coast protecting constructions (design and survey works, construction)	SC «Olympstroy»
70.	Waste water treatment plants, Krasnaya Polyana District (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)
71.	Waste water treatment plants in Adler District (design and survey works, construction)	SC «Olympstroy»
72.	Waste water treatment plants in Adler District (design and survey works, liquidation) <*>	Krasnodar Region Administration, Sochi City Administration
73.	Excluded	
74.	Excluded	
75.	Waste water treatment plants «Bzugu» (design and survey works, reconstruction, construction) <*>	Krasnodar Region Administration
76.	Deepwater release outlet from waste water treatment plants «Bzugu» (design and survey works, construction) <*>	Krasnodar Region Administration, Sochi City Administration
77.	Deepwater release of treated waters from the territory of Imeretinskaya lowland and Adler treatment plants, including sewage collector (design and survey works, construction)	SC «Olympstroy»
78.	Main sewage collector in Krasnaya Polyana District (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)

Engineering Infrastructure		
79.	Main sewerage networks from Kudepsta settlement to Kudepsta waste water treatment plants, Imeretinskaya lowland (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)
80.	Utility networks of sewage, water supply, heat supply, storm water sewer with cleaning system in Imeretinskaya lowland (design and survey works, construction)	SC «Olympstroy»
81.	Sewerage networks in Khosta District with replacement of the existing networks and the sewage pumping station (design and survey works, reconstruction, construction) <*>	Krasnodar Region Administration, Sochi City Administration
82.	Sewerage networks on the right bank of the Mzymta river in Krasnaya Polyana District (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)
83.	Sewerage networks on the left bank of the Mzymta river in Krasnaya Polyana District (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)
84.	Sewerage networks from sport and tourist complex «Gornaya Carousel» to the main sewage collector of Krasnaya Polyana village District (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)
85.	Sewage collector from Hotel complex «Zhemchuzhina» to the sewage pumping station near the Sea port (design and survey works, reconstruction) <*>	Krasnodar Region Administration, Sochi City Administration
86.	Sewage collector from the sewage pumping station # 13 to the well # 10a near the slope of Voikova str. (design and survey works, construction) <*>	Krasnodar Region Administration, Sochi City Administration
87.	Sewage collector from the sewage pumping station # 3b to the waste water treatment plants «Bzugu» (design and survey works, construction) <*>	Krasnodar Region Administration, Sochi City Administration
88.	Sewage pumping station # 3b instead of the existing one (design and survey works, construction) <*>	Krasnodar Region Administration, Sochi City Administration
89.	Sewage pumping station # 13 (design and survey works, liquidation) <*>	Krasnodar Region Administration, Sochi City Administration
90.	Water intake at the lower station of the Alpine ski resort «Rosa Khutor» (design and survey works, construction)	«The Ski Resort Development Company Rosa Khutor» LLC
91.	Water intake at the finish zone of the Alpine ski resort «Rosa Khutor» (design and survey works, construction)	«The Ski Resort Development Company Rosa Khutor» LLC
92.	Water intake on the Beshenka river (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)

Engineering Infrastructure		
93.	Water intake «Esto-Sadok-Mzymtinsky» (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)
94.	Water intake on the Psou river (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)
95.	Main water supply networks in Imeretinskaya lowland area (design and survey works, construction)	SC «Olympstroy»
96.	Trunk main from the water intake on the Beshenka river to the water intake «Estosadok-Mzymtinsky» (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)
97.	Trunk main from the water intake on the Mzymta river to the Psou river water intake (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)
98.	Water pipeline from the Chaifabrika of Adler District to Kudepsta settlement (design and survey works, construction) <*>	Krasnodar Region Administration, Sochi City Administration
99.	Water pipeline from the Chaifabrika of Adler District to the pumping station «Don» (design and survey works, construction) <*>	Krasnodar Region Administration, Sochi City Administration
100.	Water pipeline from the pumping station «Don» to the sanatorium «Krasny Sturm» (design and survey works, construction) <*>	Krasnodar Region Administration, Sochi City Administration
101.	Water pipeline from the sanatorium «Krasny Strum» to Bytha Microdistrict (design and survey works, construction) <*>	Krasnodar Region Administration, Sochi City Administration
102.	Water pipeline from the trunk main of Krasnaya Polyana settlement to sport and tourist complex «Gornaya Carousel» (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)
103.	Surface waters drainage and treatment facilities in Central, Khosta and the central part of Adler Districts (design and survey works, construction, reconstruction) <*>	Krasnodar Region Administration, Sochi City Administration
104.	Heating pipeline on the section from the heating camera # 6 to the heating camera # 6c (design and survey works, reconstruction) <*>	Krasnodar Region Administration, Sochi City Administration
105.	Gas pipeline Dzhubga – Lazarevskoye – Sochi (design and survey works, construction)	OJSC «Gazprom»
105.1.	Gas pipeline to Adler thermal power plant (feasibility studies, design, construction)	JSC «Gazprom mezhregiongaz»
105.2.	Second line of Adler – Krasnaya Poliana – Esto-Sadok gas pipeline (feasibility studies, design, construction)	JSC «Gazprom mezhregiongaz»
105.3.	Branch gas pipeline to Dzhubginskaya thermal power plant, including gas reduction and metering node (feasibility studies, design, construction)	OJSC «Gazprom»

Engineering Infrastructure		
105.4.	Excluded.	
105.5.	Automatic gas-distributing station for Adler District of the City of Sochi (feasibility studies, design, construction)	OJSC «Gazprom»
105.6.	Gas pipeline to Kudepstinskaya thermal power plant (feasibility studies, design, construction)	JSC «Gazprom mezhregiongaz»
106.	Gasification of villages, settlements and the central part of Adler District regarding low-pressure gas pipelines (design and survey works, construction) <*>	Krasnodar Region Administration
106.1	Gasification of villages, settlements and the central part of Adler District regarding high – and medium – pressure gas pipelines (design and survey works, construction)	JSC «Gazprom mezhregiongaz»
107.	Medium pressure gas pipeline to sport and tourist complex «Gornaya Carousel» (design and survey works, construction) <*>	SC «Olympstroy» (design and survey works), Krasnodar Region Administration (construction)
108.	Medium pressure gas pipeline to the ski resort «Roza Khutor» (design and survey works, construction)	SC «Olympstroy»
109.	Water supply networks and drainage system to the combined Complex for Cross-Country Skiing and Biathlon, Psekhako Ridge (design and survey works, construction)	SC «Olympstroy»
109.1	Water conduit from Krasnaya Polyana settlement backbone network to the Olympic venues of Roza Khutor plateau regarding the connection of water withdrawal of «Roza Khutor» mountain resort	SC «Olympstroy»

Communications Infrastructure		
110.	Mobile radio network of the «Tetra» standard, including user equipment (design and survey works, construction)	Federal Communications Agency
111.	Excluded.	
112.	Fiber-optic lines of transmission from the city of Anapa to Dzhubga, from Dzhubga to Sochi with a subline from Dzhubga to Krasnodar (design and survey works, construction)	Federal Communications Agency
113.	Command center for security protection (design and survey works, construction)	Federal Communications Agency
114.	Post office in Krasnaya Polyana village (design and survey works, construction)	Federal Communications Agency

Power Supply Infrastructure		
115.	«Poselkovaya» substation (220 kv) with overhead power transmission lines (220 kv) to «Poselkovaya» substation (design and survey works, construction)	OJSC «Federal network company of the Unified Energy System»
116.	«Psou» substation (220 kv) (design and survey works, reconstruction)	OJSC «Federal network company of the Unified Energy System»

Power Supply Infrastructure		
117.	«Bocharov ruchi» substation (110 kv) with power feeds (design and survey works, construction) <*****>	OJSC Kuban Power Engineering and Electrification
118.	«Veseloye» substation (110 kv) and its connections (design and survey works, construction)	OJSC «Federal network company of the Unified Energy System»
119.	«Vremennaya (Reservnaya)» substation (110 kv) and its connections (design and survey works, construction)	OJSC «Federal network company of the Unified Energy System»
120.	«Izumrudnaya» substation (110 kv) and its connections (design and survey works, construction)	OJSC «Federal network company of the Unified Energy System»
121.	«Laura» substation (110 kv) and its connections (design and survey works, construction)	OJSC «Federal network company of the Unified Energy System»
122.	«Roza Khutor» substation (110 kv) and its connections (design and survey works, construction)	OJSC «Federal network company of the Unified Energy System»
123.	10 kv substations and power supply distribution network of the ski resort «Roza Khutor» for 22 Mvt load connection (design and survey works, construction)	OJSC «Federal network company of the Unified Energy System»
123.1	10 kv substations and power supply distribution network of the ski resort «Roza Khutor» for additional load connection (design and survey works, construction)	OJSC «Federal network company of the Unified Energy System»
124.	Substation (110 kv) of the Krasnaya Polyana hydro power station (design and survey works, reconstruction)	«LUKOIL-Ekoenergiya» Ltd.
125.	«Vishnevaya» substation (110 kv) and its connections (design and survey works, construction)	OJSC for energy and electrification of Kuban
126.	«Vereshaginskaya» substation (110 kv) and its connections (design and survey works, reconstruction)	OJSC for energy and electrification of Kuban
127.	«Bytha» substation (110 kv) and its connections (design and survey works, construction)	OJSC for energy and electrification of Kuban
128.	«Rodnikovaya» substation (110 kv) (design and survey works, reconstruction)	OJSC for energy and electrification of Kuban
129.	Substations and power networks (10 kv and 0,4 kv) for servicing of construction works in Adler District (design and survey works, construction)	SC «Olympstroy»
130.	Adler thermal power station (capacity not less than 360 MW), (design and survey works, construction)	«Gazprominvestproject» LLC
131.	Kudepsta thermal power plant (feasibility studies, design, construction)	OJSC «Vneshenergосnab Concern»
132.	Dzubga thermal power station (design and survey works, construction)	OJSC «Third Generating Company of the wholesale energy Market»
133.	Sochi thermal power station (capacity not less than 80 MW), (design and survey works, construction)	OJSC «INTER RAO UeES»
134.	Central Heating and Power Station of Tuapsinskiy oil refinery, (capacity not less than 150 MW), (design and	OJSC «ROSNEFT»

Power Supply Infrastructure		
	survey works, construction)	
135.	Excluded.	
136.	Mobile power supply units (design and survey works, construction)	SC «Olympstroy»
137.	Service compound for Krasnaya Polyana power networks and substations (design and survey works, construction)	OJSC for energy and electrification of Kuban
138.	Heating boiler houses (# 10; # 11; #19; # 24) (design and survey works, reconstruction) <*>	Krasnodar Region Administration, Sochi City Administration
139.	Heating boiler house # 16 with replacement of steam boilers by modern hot water boilers (design and survey works, reconstruction) <*>	Krasnodar Region Administration, Sochi City Administration
140.	Heating boiler houses # 19/3, 19/4 and 19/5 in Krasnaya Polyana village for natural gas working (design and survey works, reconstruction) <*>	Krasnodar Region Administration, Sochi City Administration
141.	Boiler Room # 28 with heating main (design, feasibility studies, dismantling of boiler room equipment, reconstruction of the heating main)	Krasnodar Region Administration
142.	Heating boiler house # 29 up to the 15 Gcal capacity (design and survey works, reconstruction) <*>	Krasnodar Region Administration, Sochi City Administration
143.	Excluded	
144.	Excluded	
145.	Cable and overhead power transmission lines (110 kv) for power distribution from the Sochi thermal power station to «Sochi» substation (design and survey works, construction)	OJSC for energy and electrification of Kuban
146.	Cable and overhead power transmission lines (110 kv) from the Sochi thermal power station to the Khosta substation (design and survey works, construction)	OJSC for energy and electrification of Kuban
147.	Cable and overhead power transmission lines (110 kv) in the area of «Roza Khutor» tableland (design and survey works, construction)	OJSC «Federal network company of the Unified Energy System»
